FOR IMMEDIATE RELEASE

ADDITION of NEW POSITION at CALMONT WIRE and CABLE

Santa Ana — June 17, 2002— Calmont Wire & Cable Inc is pleased to announce the addition of a new position to provide sales and technical support to our customers. The newly formed position of Director of Applications Engineering was filled by Ronald R. Caplette. Ron comes with extensive experience in product design and development for a broad range of applications relating to custom wire and cable, and is a certified RCDD/LAN specialist.

As a leading manufacturer of precision, custom wire and cable, Calmont now offers additional customer support for the many diverse and specialized applications, from concept and design through to prototyping and production.

Ron Caplette can be reached at (714) 549-0336, extension 118 and by E-mail at ronc@calmont.com. He invites your inquiries and requests for any wire and cable applications with which you may require assistance.

Calmont Wire and Cable, an ISO9001 manufacturer with over 40 years of experience, provides complete customer support from product design engineering, prototyping, through to full production. For more information on how Calmont can serve your unique requirements, please contact us at (714) 549-0336, by fax at (714) 549-4028, by e-mail at calsales@calmont.com, or visit our Web site at www.calmont.com.
